

# Technical Data Sheet

Scuff & Prep Paste and Ruff Stuff are used for paint preparation and blending. Use for surface preparation prior to painting to remove contaminants, silicone, grease and oils, tar and road film. Use on all areas to be painted, panels, jambs, moldings, bumpers. To save time, use in place of wet sanding and degreasing. They eliminate repaint problems such as fisheyes, craters, blisters and peeling. Use Scuff & Prep Paste for light scuffing and Ruff Stuff for heavy scuff applications.
