

Signature Series Low VOC Sealer

9521, 9524, 9531, 9534, 9541, 9544

Signature Series Low VOC Sealer has been specifically formulated as a premium quality sealer to be used over a variety of substrates. This sealer offers excellent adhesion to bare metal, aluminum, SMC, fiberglass, old paint finishes and all Transtar primers. It is compatible with most basecoat/clearcoat and single stage systems. It is available in 3 colors to suit all your color match needs.

Mix Ratio

4:1:1 - 4 parts sealer to 1 part activator to 1 part reducer

Pot life: 2.5 hrs (@70°F (21°C) and 50% R.H.)

** Use reducer according to shop conditions. Using reducers other than Zero VOC Urethane Grade Reducers will increase VOC.*

Suitable Substrates

- Bare steel
- Primer - self-etching
- Body filler
- OEM finish & old paint work - reversible & non-reversible
- Bare galvanized
- 1K primer
- Fiberglass/SMC gel coat
- Bare aluminum
- 2K primer
- OEM E-Coat

Note: Due to the diverse nature of plastics, always test plastic substrate for acceptable adhesion. Adhesion promoter maybe required for proper adhesion.

Note: Test pre-primed panels with acetone or paint thinner. If coating fails, strip panel to bare plastic & follow SOP 251 for Raw Plastic.

Surface Prep & Application

Cleaning: Clean surfaces using standard refinish techniques to avoid contamination. Wash surfaces thoroughly with soap and water. Rinse well and wipe dry with a clean cloth. Solvent clean with SCAT 6311, Speedi SCAT 6321 or Aqua SCAT 2 1391/1394 and wipe dry with clean cloth.

Sanding: Finish sand all areas to be sealed with 400-600 grit or finer sandpaper. For OEM E-coat panels, no sanding is necessary, follow cleaning steps above prior to application. Refinish lacquers require entire panel repair. Not recommended for spot repairs over lacquer as lifting may occur. If gelcoat is broken, a polyester primer, such as Kwik Fill 6541-G, should be used.

Application: Apply 1 full wet coat. If desired, additional coats may be used to achieve coverage. Allow 5-10 minute flash.

Film build: 1.0 - 1.5 mils

Critical recoat time: Sealer should be topcoated within 1 hour to avoid adhesion problems. After 1 hour, scuff sand the sealer with gray scuff pad or sand (wet or dry) with 600-800 grit before applying more sealer or basecoat color. Topcoating without sufficient dry times may result in die-back. Denib with 1200-1500 wet, using a coarser grit could gouge the sealer.

Tinting & Additives

Tinting Can be tinted up to 10% with basecoat toners. Use only unreduced basecoat when tinting. DO NOT tint with single stage urethane or acrylic enamels. For Star Shade ratios, refer to the chart on the next page.

Kicker (6417) Do not use.

Fisheye Remover (6737) .. Can be used at a rate of 1/4 to 1/2 oz per sprayable quart.

Flex Additive (9194) May be used refer to TDS for mixing instructions.

Flash Times/Dry Times

Flash between coats..... 5-10 min

Dry to touch 10 min

Dust free..... 10-15 min

Dry to recoat w/o sand... 1 hr

Force drying..... 5 min @ 140°F (60°C)

Gun Set-up

Siphon feed.....	1.4 - 1.6 mm	Gravity feed.....	1.2 - 1.6 mm
Pressure feed	1.0 - 1.2 mm	HVLP/LVLP	1.2 - 1.6 mm

Air Pressure

Siphon feed (@ gun)	40 - 50 psi	Gravity feed (@ gun)	30 - 40 psi
Pressure feed (@ gun).....	40 - 50 psi	HVLP/LVLP (@ aircap).....	10 psi

Fluid Pressure

Pressure feed 10 - 14 psi

Product Specifications

Color (9521/9524)	White	Size (9521/9531/9541)	Gallon
(9531/9534)	Gray	(9524/9534/9544)	Quart
(9541/9544)	Black	(9404/9414/9424)	Quart
(9400 series).....	Activator	(9417/9427)	1/2 pint
Weight per gallon.....	10.4 #/gal	RTS solids by weight.....	47%
Approx. coverage.....	533 ft ² /gal @ 1 mil	Shelf life.....	3 years

Star Shade Mix Ratios

Limitations & Precautions

- Sealer must be shaken for a minimum of 10 minutes.
- This product provides adhesion and corrosion protection when used over noted (checked) substrates - when properly cleaned, sanded and applied.
- Visit www.tat-co.com to assure use of the most current instructions and TDS on this product.
- See website (www.tat-co.com) for this document in other languages. (Vea el web site para este documento en español. Voir le site web pour ce document en français.)
- For use only by professional, trained painters. Not for sale to or use by the general public.

LIMITED WARRANTY

The successful performance of this product is dependent on many factors beyond our control. Results are dependent upon the skill of the operator. This product is manufactured to meet the highest level of consistency and quality for the intended use. Transtar Autobody Technologies, Inc. warrants that its products meet the specifications which it sets for them. Should this product be proven to be off-specification within shelf life as stated in this datasheet, Transtar Autobody Technologies, Inc. will, at its sole discretion, either replace the product or issue credit for the original purchase price of the product. The replacement or refund shall be the buyer's sole remedy and Transtar Autobody Technologies, Inc. and its affiliates MAKE NO OTHER WARRANTY OR GUARANTEE, EXPRESS OR IMPLIED, INCLUDING MERCHANTABILITY, DESIGN COMPATIBILITY AND FITNESS FOR A PARTICULAR PURPOSE. LABOR OR COST OF LABOR AND OTHER INCIDENTAL AND/OR CONSEQUENTIAL DAMAGES ARE SPECIFICALLY EXCLUDED. The technical data contained herein are true and accurate to the best of our knowledge.
