

Ultimate Finish System

STEP 1 - Cutting Compound

- * Use 1.25" by 6" ribbon (for every 2' x 2' area to compound)
- * Buff at moderate to low speed (1000-1400 rpm)
- * Work in circular overlapping motion with Orange Foam Cutting Compound Pad #5272 or Wool Buffering Pad #5200 or #5260
- * Sand with 1200 grit wet or dry and finish sand with 1500-2000

CUTTING COMPOUND

- Optimum-cut technology that levels 1200 grit or finer sand scratches without scratching the paint.
- Produces high gloss and shine on hard-baked coatings, scratch resistant coatings, gel coat and more.

Part #	Description	Units Per Case
5361	Gallon	2/case
5364	Quart	6/case
5200	Wool Pad	6/case
5225	Backing Plate w/ Nub	6/case
5260	Double Sided Wool Pad	6/case
5272	Cutting Compound Pad	6/case

STEP 2 - Machine Polish

- * Use 1.25" by 6" ribbon (for every 2' x 2' area to compound)
- * Buff at a low speed (1000 rpm)
- * Work in circular overlapping motion with White Foam Machine Polish Pad #5282
- * Sand with 1200 grit wet or dry and finish sand with 1500-2000

MACHINE POLISH

- Advanced technology eliminates 2000 grit or finer imperfections and scratches leaving a high gloss finish.
- Longer open time allows you to buff longer using less material for an impeccable shine.

STEP 3 - Swirl Remover

- * Use 1.25" by 6" ribbon (for every 2' x 2' area to compound)
- * Spread with pad to minimize sling
- * Buff at low speed (1000-1200 rpm)
- * Work in circular overlapping motion with Gold Foam Swirl Remover Pad #5292
- * As shine appears, reduce buffer speed

SWIRL REMOVER

- Easily removes swirl marks and leaves high gloss finish with minimal effort.
- Formulated for prime results on darker colors.
